The experience of a resident of Brooklyn, a bookkeeper, 25 years old, is similar to that of thousands of others who have testified to the good Ripans Tobules have done them. "About a year ago (says this gentleman) I commenced being troubled with dyspepsia. I would go to a meal with a splendid appetite and very hungry, but after a few mouthfuls I would begin to notice a fullness and pain in my stomach. I tried a great many so-called dyspepsia cures, but no sconer did I stop using them than I noticed the old trouble returning. About two months ago Ripans Tabules was first brought to my attention by a friend of mine. Noticing a Ripans Tabule card in the car, he informed me that it was the greatest thing for dyspepsia, as it had entirely cured him, and insisted upon my giving them a trial. I did so, and was quite satisfied with the result. I used them straidly after that, one before my meals, and found that they were much better than any of the other remedies I had tried. I stopped their use about two weeks ago and believe I am thoroughly cured. I can now enjoy a meal again as well as when I took Ripans Tabules. I, however, always keep a small bottle with me in case I should find need for them."
